

**ASIAN TIGERS GROUP - COVID-19 IMPACT ASSESSMENT**

16 January 2023

**NOTES:**

- 1) This grid serves as a pulse check of our present assessment of the operational impact due Covid-19.
- 2) Like many other countries, precautionary measures are taken to support origin/destination service only after the 14-days quarantine/self-quarantine period if EE has travelled to affected countries.
- 3) Freight, both air and sea, are limited in schedules and especially so, to affected countries. Consequently, the difficulty and delay in securing booking, and also the price hikes due limited supply and strong demand.
- 4) Due lock-down, partial or full, in some countries, both in/out transportation will be impacted. Understandably, we will not be able to advise the estimated time it will take to customs clear the shipment and the associated port storage, demurrage and detention.
